16

Fundamental: Staffing

**The PEOPLE will
determine your level of
success!**

- For new facilities?
- Looking at efficiency measures?
- Staffing considerations
- Under cutback pressure?
- Is outsourcing under consideration?

Staffing matters.....The 80/20 Rule

*APPA Institute for Facilities
Management*

17

Staffing Calculation Methods

- By square foot
- By fixture
- By similar space
- By task/frequency/service level

Any system is not exact....beware of the “extras”!
Other tasks either assigned or unassigned that
will take away from available “cleaning” hours

*APPA Institute for Facilities
Management*

18

Use formulas or estimates to answer staffing questions

How many square feet should each of the employees be cleaning?

With the staff that you have assigned are you achieving the results as shown by industry standard?

How do we increase our cleaning results from one level to another?

APPA Institute for Facilities Management

19

Staffing Levels and Results

**Clean?
Cleaner?
Cleanest?**

A successful staffing plan will define results

Defining clean

Clean = Frequencies
